OBJECTIVE

Backend Developer with hands-on experience in automation and systems integration (WhatsApp, inventory, financial data), currently working at Cartec Bosch. Deepening knowledge in Spring Boot, PostgreSQL, and JWT.

EXPERIENCE

Backend Developer — Cartec Bosch *Feb/2026 – Present*

- Inventory module with automatic generation of basic revision items
- Financial dashboard with automatic PDF and invoice (NF-e) analysis, eliminating manual data entry
- Automated WhatsApp support powered by AI agents

Backend Developer — Loja Rei das Válvulas *Jan/2024 – Feb/2025*

- Technical owner of internal digital processes
- Automated WhatsApp customer support
- Data integration across branch locations
- Ongoing maintenance of the inventory control system
